

# CARBON NEUTRAL COMPANY

Cyberbond Europe GmbH supports the following UN goals for sustainable development:

## Cyberbond Europe GmbH

Participant ID: DE-2807-0701  
Valid until: 01.07.2022

This certificate guarantees that the reported quantity of 386 tons CO<sub>2</sub> has been calculated according to Greenhouse Gas Protocol Standard. The resulting emissions have been saved in Gold Standard tested climate projects.

Cyberbond Europe GmbH has acquired shares (certificates) in climate protection projects corresponding to the calculated volume of CO<sub>2</sub> and therefore plays a transparent part in the realisation of the projects. This ensures that the company compensates for its own CO<sub>2</sub> emissions, and thus scales back the rise in global warming.

The projects have been certified, and the issue and closure of the certificates is registered transparently.

Cyberbond Europe GmbH is therefore a voluntary participant in emissions trading, and thus makes a contribution to maintaining a viable environment by reducing the emissions of greenhouse gases. The holder of this certificate makes a sustainable contribution to the commitment to tackle global warming.

Frank Huschka
